EMBARGOED until 00:01 on 29 September 2017

Local Naturalist has made the Shortlist for the 2017 UK Awards for Biological Recording and Information Sharing

Dan Watson, 48, from Killin, in Stirling, has been shortlisted in the 'Gilbert White Adult Award for terrestrial and freshwater wildlife' category of the 2017 UK Awards for Biological Recording and Information Sharing.

These annual awards started in 2015, and have been developed by the National Biodiversity Network, the National Forum for Biological Recording and the Biological Records Centre. Their intention is to recognise and celebrate the outstanding contributions made to biological recording by adults and young people, which is helping to improve our understanding of the UK's wildlife.

Dan Watson says:

"I am fascinated with nature, particularly that of Scotland's mountains, and have long been motivated to record it and share what I have found. A lot of what drives me is finding things that are new, whether that is something I have never seen before, a new population of a rare plant or moth, or something common in a new place. There's nothing to beat exploring a craggy area rich in plant life as you never know what you might find!"

The **winners** of the 2017 UK Awards for Biological Recording and Information Sharing will be announced at a special ceremony on **Thursday 16 November** during the National Biodiversity Network's annual conference in Cardiff.

This year we are indebted to three organisations for their support:

1. [Opticron](#) for sponsoring the prizes for the Youth Awards and for the Adult Newcomer Award.
2. [Paramo Directional Clothing](#) for sponsoring the prizes for the Gilbert White Adult Award and the David Robertson Adult Award.
3. [Field Studies Council \(FSC\)](#) for sponsoring the prize for the Lynne Farrell Group Award.

/Ends.

2. **David Robertson** (1806–1896) was a Scottish naturalist who founded the [University Marine Biological Station at Millport](#), which opened in 1897. Millport Marine Biological Station closed in 2013, but reopened in 2014 as Millport Field Centre thanks to the Field Studies Council.
3. **Gilbert White** (1720 – 1793) is remembered in these awards because his name is synonymous with biological recording. He was one of the first English naturalists to make careful observations of his surroundings and record these observations in a systematic way. He transformed the way we look at the natural world and is recognised as one of the fathers of ecology.
4. **Lynne Farrell** is a well-respected botanical tour, expedition and field meetings leader. She co-authored the first 'British Red Data Book on Vascular Plants' and has produced and illustrated a pocket book 'Wildflower walks on Mull'. Since 1995 Lynne has been the Botanical Society of Britain and Ireland's voluntary recorder for Mull, Coll and Tiree and is working on writing a new 'Flora of Mull and the Mid Ebudes'.
